Profile

As a graduate of the University of Florida with a Bachelor of Science Degree in mechanical engineering in 1979, Ed Hocevar began a 33 year career with Pratt & Whitney (a division of Raytheon Technologies). His work experience began with fundamental aerospace component test and development and culminated in the successful management of numerous large military, commercial and industrial programs

The skill sets developed and refined over his career included management of multimillion dollar budgets, schedules, technical problem solving, customer support, negotiations, relationship building, supply chain management, and human relations and personnel management.
